

Finding the right hearing care solution should be an easy and enjoyable journey

And it starts with FLEX:TRIAL

FLEX:TRIAL allows you to experience amplification in real-life situations before you buy. What better way to discover how hearing aids can benefit you? By trying them where you live, work, and play, you'll gain confidence in how they enhance everything you love to do.

What's in it for me?

- › Experience your recommended hearing aids firsthand with no risk or obligation
- › Get to know what to expect from your hearing aids
- › Try an appropriate technology level and make an informed choice before you purchase

Every new experience begins with a first try

unitron™ Love the experience

A Sonova brand

Easy to try, easy to love

A truly personalised hearing care journey begins even before you purchase your hearing aids.

Here's how FLEX:TRIAL works:

1. Your hearing care professional (HCP) will fit you with trial hearing aids and recommend a technology level that is suitable for your needs and preferences
2. You'll wear trial hearing aids for a set period, with no upfront cost
3. After your trial, your HCP can offer insights into your listening lifestyle, including the environments where you spend the most time, to make a more personalised recommendation

Make the most of your trial:

Wear the hearing aids everywhere you spend time, especially in environments you usually find challenging.

95% of people with hearing loss can benefit from using hearing aids.*

Take an active role in your hearing care

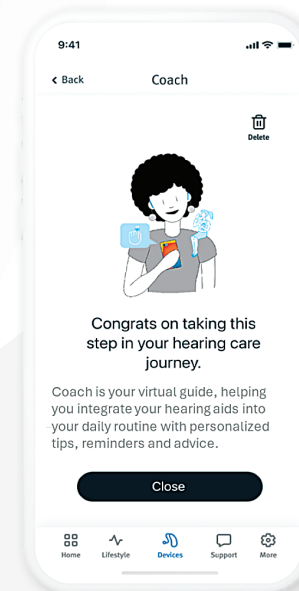

Enhance your trial with the Remote Plus app*. Adjust volume, listening programmes, and more, with ease, with the app's user-friendly navigation.

The app also gives you access to Coach, a virtual guide that delivers easy-to-understand instructions, videos, reminders and tips straight to your smartphone.

During your trial, use Ratings to easily capture in-the-moment feedback about your experience and share it with your HCP automatically.

*For the use of the Remote Plus app, Unicon hearing aids with Bluetooth® connectivity are required. The Remote Plus app works on Apple smartphones with iOS 15 or newer and Android smartphones with version 8.0 or newer.
