

**Possibilities open wide
with choice on your side**

Welcome to the
Vivante
experience

Choice expands possibilities

Life is full of choices, a wide world of possibilities. The Vivante™ platform expands its robust lineup with two new styles, providing additional options to meet a variety of listening needs and preferences:

Stride™ V-M – Our smallest and lightest BTE in the Vivante portfolio featuring a standard 312 battery; an ideal choice for clients seeking comfort and style

Stride V-SP – A new 13 BTE option for clients seeking a power option with an even longer battery life; features three distinct Super Power pre-sets

Moxi™ V-312

Smallest RIC with a standard battery and direct connectivity

Moxi V-R

Smallest rechargeable RIC with direct connectivity

Moxi V-RT

Rechargeable RIC with telecoil and direct connectivity

Moxi V-RS

Sleekest rechargeable RIC with direct connectivity

NEW! Stride V-M

Smallest BTE with a standard battery and direct connectivity

Stride V-PR

Rechargeable BTE with direct connectivity

NEW! Stride V-SP

Power BTE with a standard battery and direct connectivity

Stride V-UP

Ultra Power BTE with a standard battery and direct connectivity

Sound performance with Vivante is our best yet

Integra OS – evolved to include an 8th listening environment, conversation in loud noise

HyperFocus – improves SNR for face-to-face conversations in loud noise environments

360 conversation in car manual programme – automatically focuses on speech, regardless of where passengers are sitting

Unlock the possibilities of personalisation

The Remote Plus app provides clients with an enriched hearing journey through various Experience Tech Tools and personalisation options, all presented in a modern, user-centric interface. Coach, their virtual hearing aid guide, provides improved tips, reminders, and advice. Coach messages are now accessible anytime by clicking on Coach in the Support tab.

Expand your clients' connections

Thanks to Made For All compatibility, clients can conveniently stream phone calls and other media like music, podcasts and digital assistants right to their hearing instruments. They can connect up to eight devices and seamlessly switch between two actively connected Bluetooth® sources.

96% of Unitron customers agree a real advantage of Made For All connectivity is not having to ask clients what phone they use*

Hearing instruments are not shown at actual size.

*Sonova proprietary research. 2023. Project ID4661. Please contact marketinsight@unitron.com if you are interested in further information.

Compelling technology at all levels

You can have the peace of mind of knowing that Unitron has compelling technology at all levels to meet your clients' lifestyle and budget. If their lifestyle, budget or hearing needs change, our unique FLEX:UPGRADE™ means their hearing instruments can evolve with them. From start to finish your clients can feel good about the entire hearing care experience.
